

Quality and Food Safety Policy

Compliance and customer satisfaction

We produce safe foods in compliance with legal requirements and satisfy the needs and requirements of our customers.

Continuous improvement

We have a Management System designed to meet objectives and improve them day by day.

Management commitment

We provide the necessary resources to ensure that Quality and Food Safety are part of the business vision.

Communication

We maintain fluid communication between members of the organization and all interested parties.

Safety culture

We work so that the values, beliefs and actions in food safety are transversal in our Organization.
